

## Connector Pin Configuration

### IMPORTANT

The window includes a 2-meter cable with an RJ45 connector, crimped using the T-568A wiring standard. If you choose to extend the cable manually, please ensure that all connectors are also crimped using the T-568A standard to maintain proper functionality and prevent damage to the product.

Pin	Colour	Assignment
1	Green/White	GND
2	Green	GND
3	Orange/White	Not Connected
4	Blue	CLOSE
5	Blue/White	OPEN
6	Orange	GND
7	Brown/White	Not Connected
8	Brown	+24V DC

Pins 4 and 5: generate an opening or closing impulse (+24 V DC) via a potential-free contact / relay or push-button.
